

CURRICULUM VITAE:

Robert Shapley

Natalie Clews Spencer Professor of the Sciences
Center for Neural Science, New York University
4 Washington Place, New York NY 10003
tel. 212 998 7798
fax 212 995 4860
e-mail: shapley@cns.nyu.edu
web: www.cns.nyu.edu/corefaculty/Shapley.html

born: Oct. 7, 1944

married: Laurie Sigal

children: Nina Shapley A.B. (1993), Ph.D. (2000) and Alice Shapley, A.B. (1997), Ph.D. (2003)

Education:

Harvard College, Cambridge MA, A.B. 1965 Chemistry and Physics
Rockefeller University, New York NY, Ph. D. 1970 Biophysics

Positions Currently Held:

Natalie Clews Spencer Professor of the Sciences, New York University, 1992-
Professor, Neural Science, Psychology and Biology, New York University, 1987-
Associate Member, Courant Institute, New York University 2000-
Adjunct Professor, Rockefeller University, 1987-
Director, Program for Theoretical Visual Neuroscience, New York University, 1994-

Previous Professional Experience:

Helen Hay Whitney Foundation Postdoctoral Fellowship
Northwestern University, Evanston Illinois 1970-71
Cambridge University, Cambridge England, 1971-72
Assistant Professor, Rockefeller University, 1972-76
Investigator, Marine Biological Laboratory, Woods Hole, Mass. summer, 1974, 1976
Associate Professor, Rockefeller University, 1976-87
Investigator, Marine Laboratory, Plymouth UK, summer, 1977
Committee on Vision, US National Research Council, 1986-90
Visual Sciences B Study Section, NIH, 1988-92
Chairman, Visual Sciences B Study Section, NIH, 1990-92
Director, NYU Center for Neural Science, 1991-93
Associate Editor, *Journal of General Physiology*, 1983-95
Associate Editor, *Visual Neuroscience*, 1988-1991
Sensory Physiology Editor, *Experimental Brain Research*, 1990-97
Director, Visual Neuroscience Training Program, Center for Neural Science, 1993-2001

Fellowships, Honors:

National Science Foundation Graduate Fellowship 1965-1970
Woodrow Wilson Fellowship 1965 (honorary)
Helen Hay Whitney Postdoctoral Fellowship 1970-73
National Institutes of Health, Research Career Development Award, 1977-82
MacArthur Fellow 1986
Astor Lecturer, Oxford University, U.K. 1996
NYU Sokol award, 1997

Selected Invited Lectures

Netherlands Academy of Sciences, Amsterdam, 1977, 1986
Japan Society for the Promotion of Science, Tokyo 1979
Society for Neuroscience, Los Angeles 1981; New Orleans 1988; San Diego 2008
Bat-Sheva Seminar, Hebrew University of Jerusalem, Israel 1984
National Institute of Biology Symposium, Okazaki, Japan 1984
American Philosophical Society, Philadelphia, Penn. 1985
Illusory Contours Conference, Adelphi University, Long Island, NY 1985
Badenweiler Conference, West Germany 1987
Association for Research in Vision and Ophthalmology, Sarasota 1988
International Conference on Eye Research, Helsinki, Finland 1990
NATO Workshop, Roros, Norway 1990
Taniguchi Symposium, Katata, Japan, 1990
Retina Research Foundation Symposium, Houston, 1992
FASEB Retinal Pathways Conference, Vermont 1992
European Conference on Visual Perception, Pisa, Italy, 1992
McDonnell-Pew Cognitive Neuroscience Workshop, Lake Tahoe, 1993, 1998
Ciba Workshop on "Higher Order Processes in Vision", London, U.K. 1993
US-Israel BiNational Science Foundation Workshop, Jerusalem, Israel 1994
Astor Lecturer, Oxford University, U.K. 1996
Computational Neuroscience Summer Course, Woods Hole, Mass. 1996
Teuber Symposium, MIT, Cambridge Mass. 1996
Workshop on Color Vision, Tuebingen Germany, 1996
Institute for Mathematics and Applications, University of Minnesota, Minneapolis 1998
Courant Institute, Christmas Lecture, New York City 1998
Cold Spring Harbor Laboratory, Workshop on Thalamus-Cortex, 1999
Gatsby Center Workshop on Cortical Dynamics, London UK, 2000
CNRS Workshop on Cerebral Cortex, University of Paris, Paris France, 2000
Rockefeller University Reunion, New York City, 2001
Optical Society of America Workshop on Color Vision, Irvine California 2001
Institute of Theoretical Physics, University of California, Santa Barbara, 2001
Dynamical Neuroscience IX, NIMH workshop, San Diego California, 2001
Helmholtz Club, Irvine California 2002
Workshop on Cortical Dynamics, Institut Henri Poincare, Paris France, 2002
Moran Eye Center, University of Utah, Salt Lake City, 2003
Reganfest, York University, Toronto Canada 2003
NYU Color Workshop, New York City, 2003
McLaughlinFest, University of North Carolina, Chapel Hill 2004
"Cortical Dynamics" course, Karolinska Institute, Stockholm Sweden 2005
AIC Colour 2005, Granada Spain 2005
Lundfest for Jennifer Lund, Salt Lake City Utah 2005
Killam Lecture, McGill University, Montreal Canada, 2005
University of Paris V, Paris France 2006
Mind and Brain Institute, University of New Mexico, Albuquerque New Mexico 2006
German Neuroscience Society, Goettingen Germany 2007
Institute for Advanced Study, Hebrew University, Jerusalem Israel 2007; 2008
Visual Sciences Society, Naples Florida 2008
Workshop, Bernstein Center for Computational Neuroscience, Berlin Germany, 2008
Cosyne Workshops, Snowbird Utah, 2010
CNTRICS, Washington University, St. Louis, 2010
Duke University Institute of Brain Sciences, Durham NC 2011
UCLA Physics Department Colloquium, Los Angeles CA 2011
Heller Lecture in Computational Neuroscience, Hebrew University, Jerusalem 2012

Bernstein Center for Computational Neuroscience, Berlin, Germany 2013
Max Planck Institut für Dynamik und Selbstorganisation, Goettingen, Germany 2013
Asian-Pacific Conference on Vision, Suzhou China 2013
Fall Vision Meeting, OSA, Houston Texas, 2013
Art, Vision & the Brain Workshop, Duke University, Durham North Carolina, 2014
Seeing Color: Art, Vision & the Brain, Duke University, Durham North Carolina, 2015

ROBERT SHAPLEY: COMPLETE PUBLICATIONS

Papers

Shapley, R. (1969) Fluctuations in the response to light of visual neurones in Limulus, *Nature*, 221, 437-440.

Dodge, F.A., Shapley, R. and Knight, B.W. (1970) Linear systems analysis of the Limulus retina, *Behav.Sci.*, 15, 24-36.

Shapley, R. (1971) Fluctuations of the impulse rate in Limulus eccentric cells, *J.Gen.Physiol.*, 57, 539-556.

Shapley, R. (1971) Effects of lateral inhibition on fluctuations of the impulse rate, *J.Gen.Physiol.*, 57, 557-575.

Shapley, R., Enroth-Cugell, C., Bonds, A.B. and Kirby, A. (1972) Gain control of the retina and retinal dynamics. *Nature*, 236, 352-353.

Shapley, R. and Tolhurst, D.J. (1973) Edge detectors in human vision, *J.Physiol.*, 229, 165-183.

Enroth-Cugell, C. and Shapley, R. (1973) Adaptation and dynamics of cat retinal ganglion cells. *J.Physiol.*, 233, 271-309.

Enroth-Cugell, C. and Shapley, R. (1973) Flux, not retinal illumination, is what cat retinal ganglion cells really care about, *J.Physiol.*, 233, 311-326.

Shapley, R. (1974) Gaussian bars and rectangular bars: the influence of width and gradient on visibility, *Vision Res.*, 14, 1457-1462.

Shapley, R. and Hochstein, S. (1975) Visual spatial summation in two classes of geniculate cells. *Nature*, 256, 411-413.

Enroth-Cugell, C., Lennie, P. and Shapley, R. (1975) Surround contribution to light adaptation in cat retinal ganglion cells *J.Physiol.*, 247, 579-588.

Shapley, R. and Rossetto, M. (1976) An electronic visual stimulator, *Behav. Res. Meth. Instrum.*, 8, 15-20.

Hochstein, S. and Shapley, R. (1976) Quantitative analysis of retinal ganglion cell classifications. *J.Physiol.*, 262, 237-264.

Hochstein, S. and Shapley, R. (1976) Linear and nonlinear spatial subunits in Y cat retinal ganglion cells. *J.Physiol.*, 262, 265-284.

Jakiela, H.G., Enroth-Cugell, C. and Shapley, R. (1976) Adaptation and dynamics in X-cells and Y-cells of the cat retina, *Exp.Brain Res.*, 24, 335-342.
